A b o u t U s

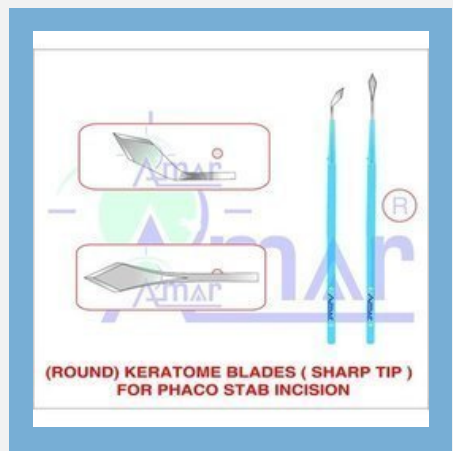

Established in the year 2005, Amar Instruments is engaged in manufacturing, supplying and exporting Ophthalmic Blades. Our range is in conformation with an ISO 13485:2012 & CE CERTIFIED COMPANY standards and assists various ophthalmologists to support a genuine motive of helping the blinds by removing blindness from the world. We custom design our products according to the needs and specifications of Ophthalmologists

We manufacture varied kinds of ophthalmic blades, with stringent quality checks at every step to provide standard products to our clients. We also follow strict delivery schedule to uphold a good reputation in the market.

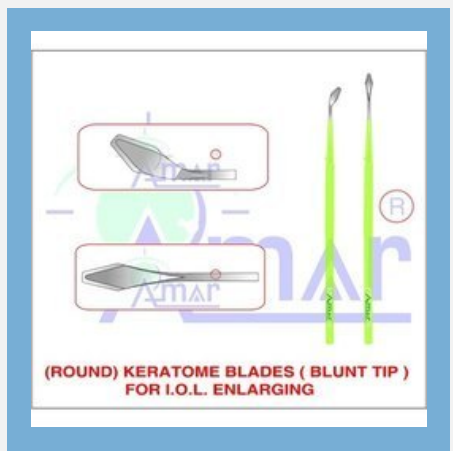

Under the able guidance of our founder, **Mr. Bharat Rathod**, we have been able to establish ourselves as a reputed group in the industry. Owing to his sharp business insight, ample industrial experience of 20 years, and our team of skilled professionals, we have been able to gain a remarkable turnover of USD 0.25 Million.
